Generous Bramhope Round Table members respond to Dame Judi Dench plea for local maternity support.

Dame Judi Dench – Vice President to Baby Lifeline, the mother and baby charity, has launched, and is fronting, a national maternity equipment appeal.

Maternity and special care baby units nationwide have requested various amounts of equipment to help care for pregnant women and their unborn and newborn babies, totalling circa £1.6 million.

Bramhope Round Table responded very quickly to a request for the purchase of 2 sets of baby weighing scales for the community midwives.

The equipment will be presented to health professionals at the Maternity Unit by Round Table officials.

Baby Lifeline's Founder Judy Ledger said 'Organisations such as Bramhope's Round Table are tremendous for their support for the community. Not only do members generously support the community with various projects, but their comradeship and networking is very valuable and caring. I am delighted that Bramhope's Round Table has supported this important appeal, and their donation will help to care for many of the local mums to be and their babies in this are for the future. As a mother of three, and having founded Baby Lifeline after the loss of three babies who were all born prematurely and died shortly after birth, I cannot express enough how dedicated maternity health professionals are and how much donations like this will help their work to care for our mums and babies.'
